JOHN HOFF'S TRIANGLE

Professor Hoff's Scientific Achievement Made of Practical Benefit by the American Press--Over One Thousand Cures Since Frederick Hammann's Test.

American Journalism never added another glory to its achievement, the saving of thousands of lives from consumption's grasp would mark its work as well done.

The work of the journalist that acts instead of theories does not end when the task seems accomplished. The effect goes on and on.

When Frederick Hammann's case was taken up by the New York American and Journal, cured by Prof. Hoff's Cure, as a result of the newspaper publicity given the cure of consumption accomplished by Professor Adolf Hoff in Vienna, it was a test for the future guidance of humanity.

Newspaper Test Proved It.

The test was most successful. Hammann was positively cured of consumption. The reports of such eminent physicians as Dr. Henry P. Loomis, Dr. J. Mount Bleyer, Dr. Daniel Cook, Dr. Carlton Simon, five physicians of the Vanderbilt Clinic, and the bacteriologist experts of the New York Health Department, as well as the examining physicians of the New York Life Insurance Co., proved it.

This interesting act on the part of the New York American and Journal gave unimpeachable force to the fact that consumption could be cured wherever found. Professor Hoff is a graduate of the same University with Dr. Loomis, who was brought to America by Mr. Armour of Chicago to cure his little daughter of hip disease at the very time when Professor Hoff's medicine had established its highest reputation for the cure of consumption.

Dr. Loomis lectured to physicians in every one of the American cities where he operated, telling them: "You can do this same thing. Follow my example for the sake of humanity." The American press added him with wide publicity.

Professor Hoff sent his message to America when Hammann returned cured, telling American physicians: "Use this same medicine for the sake of humanity. Patients may just as well take it at home, may, better, for home is the best place for a consumptive to be cured in order to reap the immense fortune he could have derived from it."

The American Press Aided Prof. Hoff.

It printed great news stories of the cure of Hammann. That the guidance offered had been accepted in the good faith it deserved in fact. Thousands of men and women sick with the hopeless disease, abandoned as Hammann had been abandoned, were cured by the American Bureau of the Professor Hoff Cure.

All the theorizing on the prevention of consumption ever indulged in has not accomplished the results that have followed the publicity given Professor Hoff's discovery.

It has been made easy, because the AMERICAN BUREAU OF THE PROFESSOR HOFF CURE HAS BEEN ESTABLISHED FOR THE PURPOSE OF FURNISHING THE NOW CELEBRATED MEDICINE, correctly and painstakingly compounded, AT AS NEAR THE COST OF MAKING AS POSSIBLE.

This was found absolutely necessary because of the errors being made by those who did not have the necessary drugs, or who were not prepared to put them through the process required. Because of SUBSTITUTIONS and ATTEMPTS to make PHARMACEUTICAL MEDICINES of the prescription, the accompanying TRIANGULAR TRADE MARK was adopted to prevent frauds and their friends from deception.

Hammann in the American Bureau.

Frederick Hammann is connected with the American Bureau, as a further protection, and personally replies to all inquiries from those desiring to take the same treatment that cured him. His own case has been as desperate as that of the unfortunate who wrote him to visit him, and the encouragement which he deems it his privilege to give is a godsend. It materially assists in the widespread work of the Bureau.

(Copyright, 1903, Bendiner & Schlesinger.)

Public Statement by Frederick Hammann.

I wish to inform the public that an alleged drug company, which is exploiting a medicine not authorized by the American Bureau of the Prof. Hoff Cure, has appropriated my name and my letters to the public. This alleged drug company has also appropriated other testimonials written to the American Bureau, and has used these testimonials in such a manner as to lead sufferers to believe that the writer had found relief by taking the imitation medicine.

The alleged remedy sold under combined names, such as Smith-Hoff Cure, Jones-Hoff Cure, etc., etc., is not the same medicine as that used by Prof. Hoff in his Vienna clinics. The genuine remedy as distributed by the American Bureau is the ONLY Prof. Hoff Cure I recommend. RATHER THAN BEGIN WITH THE WRONG MEDICINE AND BE DISAPPOINTED IT IS BETTER NOT TO BEGIN AT ALL.

As an evidence of the lack of principle of some of these unscrupulous imitators, I wish to state that only recently an announcement made by the American Bureau, with which I am connected, WAS APPROPRIATED ALMOST IN ITS ENTIRETY AND USED IN A MISLEADING WAY, EVEN TO THE EXTENT OF USING MY NAME, thereby giving the impression that I am connected with that imitation concern. Since my return from Vienna I have been connected SOLELY with the American Bureau, where I am now answering letters daily from scores of patients in various parts of the country.

Several imitations of the genuine Prof. Hoff Cure have been sent to me with letters of complaint accompanying them. These on analysis proved to be not only substitutes for the genuine, but in many cases actually dangerous. For the protection of the sufferer it has been found necessary to register at Washington the TRIANGULAR trade mark of the American Bureau of the Prof. Hoff Cure. I warn the public to accept no remedy unless bearing this triangular trade mark.

I will mail to any interested party a reprint containing an extract of the testimony given in a recent court proceeding.

(Signed)

FREDERICK HAMMANN,
American Bureau, Prof. Hoff's Cure,
3d Ave. and 10th St., New York City.

In dealing with the famous Hoff prescription, get this trade mark fixed in your mind.

Newspaper publicity given the Professor Hoff achievement, and since then to the great campaign being carried on by the American Bureau, has disposed of all the "fad" cures.

Creosote mixtures, emulsions of cod liver oil, gold and copper "cures"—all of them fanciful, and many of them ruinous to the stomach without having the slightest lasting effect on the disease—went down before the first scientific prescription, written by one of the greatest doctors in the world, which proved itself the long expected scientific remedy for consumption.

INDORSED BY MILES DOUGHERTY.

Well-known Official of the Mine Workers' Union Recommends Prof. Hoff's Cure.

A case that will interest the country generally, and especially men engaged in industrial pursuits, is given to the American Bureau by Miles Dougherty, who, as a general official of the United Mine Workers of America, is best known and most favorably known thousands of persons in all parts of the country.

Miners, iron workers and factory workers generally are more than ordinarily subject to the ravages of consumption from the very nature of their work. Mr. Dougherty, however, is not a sufferer from the disease. What its effect was may be seen from this letter, as well as what it is doing for him.

My little son is gaining in weight since he started to take the medicine. He has a wonderful appetite, and is now a great eater. His complexion and general appearance are very much improved. About my mind, I feel that it is wonderful what a change the medicine has made in him for the better. Before getting the medicine he was intended to die. He was very weak, but the medicine has helped so much that he has been able to continue at work.

With compliments of the season, yours truly,
MILES DOUGHERTY, Address District No. 5,
United Mine Workers of America, Shamokin, Pa.

PHYSICIANS REALIZE

That Prof. Hoff's Is the Only Remedy Offering Certain Relief to Consumptives.

Physicians all over the country are realizing that the genuine Prof. Hoff Cure is the only remedy known that will offer certain relief to consumptives.

Bendiner & Schlesinger, New York: Gentlemen—Some few months ago I ordered several bottles of your Prof. Hoff's Consumption Cure to try in a case of advanced consumption. I have been more than pleased with its results. Please forward me another bottle. I am sure it will do me good. I cannot afford to let the patient be without the medicine for one day. I enclose draft for same. M. J. ELLER, M. D., Central Ridge, Ohio.

Marvelous results in last stage: Bendiner & Schlesinger, New York: Gentlemen—I enclose draft for \$1.00 for which kindly send me another bottle of Prof. Hoff's Consumption Cure. IT IS VERY SATISFACTORY SO FAR. I AM USING IT ON A CASE IN THE LAST STAGE OF THE DISEASE. ITS RESULTS ARE MARVELOUS. While I did not expect a cure, the effect of the remedy is very marked on the general condition of the patient. DAVID RUSSELL, M. D., Merrill, Wis.

Physicians are charged with recommending their doctors' medicines. They know, however, that Prof. Hoff's Cure is not a patent medicine, and that it is the duty of all physicians to tell patients that consumption is curable, they are freely and so and preserve the life of a consumptive. BENDINER & SCHLESINGER, New York: Enclosed find \$1.00, for which send me one bottle

of Prof. Hoff's Remedy. I have not yet asked you to send it. It did me good. A. W. GUILLEY, M. D., 418 Center St., South Easton, Pa.

PASSING IT ALONG TO OTHERS. Co-operation of the Heartiest Kind Wiping Out Consumption.

There must be co-operation of the heartiest kind to work a great national result, and it is a great national result in the wiping out of the consumptive thousands of persons in all parts of the country.

Women are organizing church clubs and circles for the cure of consumption. Earnest individuals everywhere are taking their share in the energy to spread the work of the American Bureau.

Patients who have themselves been rescued from death are careless in their vigilance to help others.

Read this letter from a true philanthropist: American Bureau, Professor Hoff's Cure for Consumption, New York:

Gentlemen—The Professor Hoff's medicine was received in due time. I am not using the medicine myself, but I am sending it to my wife. I am doing my best to get it into the hands of the consumptive poor. Yours respectfully, G. W. MILLER, Bay, Ill.

Here is a woman who is saving lives—a woman who believes in death, not in life.

Dear Sirs—Please send me at once two bottles of Professor Hoff's Cure for Consumption.

I am not using all this medicine myself. Indeed, I only take the Cure occasionally. I have been "passing it along" to those who need it. It is a wonderful cure.

A week ago Saturday my attention was called to a young man passing the house. He was looking very ill, and I saw that he was in need of help. I told him of what the medicine had done for me, and gave him a part of my bottle. Last Sunday he stopped to have his medicine. He said: "It's all right. I only cough two or three times a day. I feel stronger; look at my eyes."

He did look better. He and his friends had hope written all over their faces. I have two other patients who have taken a new lease of life. ALICE RIGDEN, Ottawa, Ill.

I told him of what the medicine had done for me, and gave him a part of my bottle. Last Sunday he stopped to have his medicine. He said: "It's all right. I only cough two or three times a day. I feel stronger; look at my eyes."

Three times I have been so weak I could not leave the house without the aid of a cane. I could not leave the house without the aid of a cane. I could not leave the house without the aid of a cane.

Sumption on sale I at once sent for a bottle. That, I think, was the first order from this city. If you will send me one, I will send you one. I have faith in it for a home treatment, but would give it a trial.

Well I did. I began taking Hoff's on April 15, 1901, and have not missed over a dozen doses since. I am now as well as I was when I began. I am now as well as I was when I began.

Friends who know what I was and what I am

have sent me for your address from Arizona, Kansas and Texas to let friends of theirs try it. Through my recommendation two leading drug stores here, I. Dunn & Co. and W. W. Morrison, now handle the remedy here, but all the local advertising it has had got from me. All the local letters and wrappers I have had have been given to people who wanted to know what kind of medicine I was taking. While, as I said before, I do not claim to be well, I am able to make \$2.50 per day at my trade, typewriter, and I think that is pretty good for a dead "con." J. J. McLAUREN, 502 East Front St., Bloomington, Ill.

N. B.—You can use above for advertising purposes if you desire—all or part of it. I think Hoff's is the best remedy you can find for consumption, but, like everything else, it must be used intelligently and given some assistance. It is no use to take a dose of medicine and then lay down and wait for it to take you out and set you upon your feet. Anything further I can do in the interest of the remedy and humanity I will. T. J. M. Here is a man engaged in praiseworthy efforts to do all the good he may for his brother man. He is a link in the endless chain of mercy that is being forged by the Hoff Cure all over the land: Bendiner & Schlesinger, New York City.

I enclose you herewith \$1.00 money order, for which I will thank you to send me another bottle of Prof. Hoff's Consumption Cure. The marked benefit in my family has made it incumbent on me to cure up my neighbors, so it seems, and I am doing so. All doing with. THOMAS E. GOURAN, 918 Spencer St., Peoria, Ill.

ASTHMA AND CATARRH LEAD TO CONSUMPTION.

The Genuine Prof. Hoff's Cure Is Prompt and Certain.

One positive indication that bronchial affections, asthma and catarrh lead inevitably to consumption is the unquestioned fact that THE ONLY KNOWN CONSUMPTION CURE also cures those troubles. George Rutherford, out in Nevada, has come to feel that this is true:

Bendiner & Schlesinger, New York: Enclosed herewith find money order, for which please send me one bottle of Prof. Hoff's Cure. I have no second thought in recommending it further than that I think I am entirely cured of the bronchial asthma, and I think I am greatly improved in the catarrh of the lungs. All through the use of Prof. Hoff's Consumption Cure. I propose to continue with the use of the treatment for the rest of my life, or more, if necessary, and I continue to improve as I have in the last two months. I shall endeavor to let the Hoff treatment. R. D. RUTHERFORD, Winnemucca, Nev.

Catarrh is a very dangerous disease, as well as an obnoxious one. If neglected it makes the reception of consumption germs easy. It frequently leads to consumption. Hoff's Cure cures it.

I have been using Prof. Hoff's Cure for Catarrh and found it to be the best remedy that I have ever used. It has checked my cough, and I am now, and I immediately felt better after using it. B. H. KELLY, 44 Livingston ave., Albany, N. Y.

ASTHMA AND BRONCHIAL AFFECTIONS Require But a Few Weeks' Treatment—Weariness and Langor Are Forerunners of Consumption.

Any general practitioner can recognize that feeling of weariness and languor, sensitiveness to cold and exertion, which are the forerunners of the first stages of consumption. It is at this stage that Professor Hoff's treatment gives immediate results.

Chronic Bronchitis, Asthma and the various forms of Catarrh require but a few weeks' treatment.

In the second and third stages, where the foregoing symptoms are accompanied by night sweats, chills, fever, hemorrhages, loss of flesh, swelling of the face and feet, and in the case of women, especially after child-bearing, the remedy produces the same beneficial results, and in all cases a marked and decided improvement is immediately noticed.

In a few days the fever, as well as the insomnia, disappears, and increase of weight is the most conspicuous sign of improvement. Cure upon cure of cases pronounced hopeless by other physicians. All ailments and sufferings throughout the country have discarded creosote and adopted this treatment.

Asthma and bronchial affections even severe coughing and expectoration by the remedy are cured. Sometimes, when the diagnosis has not fully established the nature of the disease, the Hoff Cure has successfully diagnosed it by working a cure.

HAY FEVER.

At this season of the year there are many sufferers from Hay Fever and similar zymotic affections. Besides being a panacea for all bronchial affections, the Genuine Prof. Hoff Cure for Consumption acts as a tonic and by improving the condition of the blood wards off these annoying and often dangerous affections.

The best physicians now prescribe the Genuine Prof. Hoff Cure for Hay Fever and report most gratifying success. Some doctors who for a time were skeptical, now express their regrets at not having used this wonderful medicine when it was first announced in the various medical journals throughout the country.

MEN FALL LIKE OAKS.

Women Withier Quickly as Flowers. Prof. Hoff's Cure for Consumption Saves Generations.

When a woman is asked, who knows what service has been rendered to posterity? A wife, a mother, transformed from a consumptive into a healthy, sound woman, means more to future generations than to this.

Women are more prone to consumption than men. When a man falls before the disease it is like the falling of an oak—a woman away and totters before its first attack.

One physician who was led to buy Hoff's Consumption Cure for his sister is mentioned in this issue. Bendiner & Schlesinger:

Dear Sirs—Please send me two more bottles of Professor Hoff's Cure. My wife is all the advertisement of the Hoff Cure. She is a consumptive, and she is now a healthy woman. She is now a healthy woman. She is now a healthy woman.

The Hoffman Cure is a great blessing to women. It is a great blessing to women. It is a great blessing to women. It is a great blessing to women.

Both of the letters now selected for publication relate to the very high regard in which Hoff's Cure for Consumption is held by the various forms of physicians. This in itself is the strongest recommendation that any medicine can have.

Physicians generally know the value of COD R. GILNIN, Covington, La.
